THE PRESIDENTS MESSAGE-

President Harrison's Message to the Congress now in session is an able and exhaustive document, and everything of National importance has been fully considered.

In his message the President has made no attempt at bluster, and ha made use of no high flows, language; | the whole throg is a plain, simple C but well worded statement of facts, as he understinds them. The languare is positive and to the point, and can not fail to by understood by all Lugli h speaking people.

It is very easy to see his untipathy to the white metal; that he is, as he has always been, and das never denied, against the unlimited | Eventhing apportaining to a flexi coinage of silver. However he treats | class harness plant. No extra pa-and speaks encouragingly of the silver laws now in operation.

The message is, as everybody expeored it would be, able, cone so and patriotic and will more than compure with any previous message addressed to the framers of National

WASHINGTON LETTER.

Washington Dec., 4, 1891. Washington, or least that portion of the town where politicians congregate, has been turned into a verticale pandemorrium this week by the Democrats in their effords to decide who CHRISTMAS NITTET DOC 25 shall be Speaker of the House. Democratic abuse of Democratic candiates and Democratic methods has been constant, loud and deep. for the handsomest costume-lady if there are any rimes known to the and gentleman; two for the best sus professional political wire puller that | tained characters-dady and gent. ers for one or another of the candidates it is because they have been overlooked. Mill's friends, who, to give the devil his dues, appear to masque before 11 o'clock. All the represent the better element of the Democratic party, if it can be said to Examining Committee. have a better element, have openly charged that ex-Congressman Alexander G. Cochran, Solicitor General Gallery..... of the Missonii Pacific Railroad, who | Private Boxes for five persons. 25 00 came here with the Hatch boomers, was here as the personal representar tions during the evening. tive of Jay Gould for the purpose of working against Mills, and that the o'clock sharp. whole Hat h boom was being manipulated solely to injure Mills.

Proofs that the Alliance movement in the South will not antagonize the Democratic party are con stantly turning up. The latest is the withdrawal of the Alliance candidate for the vacancy in the Eight Virginia Congressional district caused by the death of the late Representative Lee. This withdrawal was made after all arrangements had been made to make an aggressive canvass of the district, with the assistance of the Alliance contingent in Congress, and the only reason therefore is that the Republicans of the district have nominated a candidate. The Alliance people, although claiming to have been snubbed and insulted by the regular Democrats, will swallow their grievances rather than to take any chances of the election of a Republican.

Senator Proctor is preparing to turn over the affairs of the War Deparament to the Assistant Secretary -Gen. Grant-as he will on Monday take his seat in the U. S. Sen-

Ex-Senator Edmands, who has been here since the opening of the Supreme Court, concluded not to remain until Congress opened, so he has gone to Aiken, South Carolina, to join his family.

The hearing of the arguments by the Supreme Court in three cases brought for the purpose of breaking down the McKinley tariff law, which took place this week, was not calculated to encourage the gentlemen who have been persuaded to furnish the money to hire high-priced laws

Secretary Foster has been confined to his house since his recent trip to New York, to speak before the Chamber of Commerce of that city, but he was well enough this week to put his final touches to his annual re, port. He will go South for ten days or two weeks before resuming his duties Tuere is no truth in the rumor that he had broken down from overwork. He simply had a severe cold, which developed into something

like grippe. Near La Junts, Col., the snow Opposite New Postoffice fell to the depth of four feet and the loss of cattle is som ething fearful.
